## volume index

In every January and June issue, *Arts & Activities* magazine publishes a Volume Index. The Index lists, by category and author, the articles that ran during a particular five-issue volume. We recommend keeping all of A&A's Volume Indexes on your computer, in a binder or in a file for reference when looking for articles dealing with a particular topic, medium, artist, art technique, and so on.

VOLUME 154, SEPTEMBER 2013–JANUARY 2014

### ART APPRECIATION/ART HISTORY

# Paragon Dragon kilns—easy to load and surprisingly easy on your budget

Any teacher who has been in ceramics for long would love to have a front-loading kiln.

Paragon Dragons are the best value in cost per cubic foot of front-loading kilns. You can buy as many options as your budget allows—door elements, three zone control, or S-type thermocouple. Or buy the basic model. For industrial strength front loaders, the Dragons offer the highest value for the dollar.

The Dragons exude power. They fire to cone 10 with ample power to spare. The Sentry digital controller on these kilns will spoil you. The extra insulation saves energy.

For more information on Paragon's front-loading Dragon and Super Dragon, call 800-876-4328 or email us for a free, colorful catalog. Or visit [www.paragonweb.com](http://www.paragonweb.com) for complete specifications and the name of your local Paragon dealer. Sign up at our website for a free Kiln Pointers newsletter.

The 24" x 24" x 27" high Paragon Dragon is listed to U.S. & Canadian safety standard UL 499.

The massive 27" x 27" x 36" high Paragon Super Dragon has a floating door system with four spring latches. The kiln may be more affordable than you imagine.
